NOTE: Certification and Qualification to MIL-PRF-31032 can be extended to cover MIL-PRF-55110 qualifications.

Retention reports shall be in accordance with paragraph A.4.5.5 of MIL-PRF-55110G, Amendment 3. The report shall include a summary of all product certified to the military specifications during the reporting period noted above. The manufacturer must submit a completed DSCC Form 36W for each qualification, along with group B raw data. If the manufacturer has no certified production in the reporting period, the manufacturer must indicate this on the completed DSCC Form 36W. DSCC reserves the right to request evidence of the manufacturer's capability to produce QPL printed wiring boards as stipulated by paragraph A.4.5.5 of MIL-PRF-55110G, Amendment 3. Please complete and submit the next retention report to DSCC-VQE by December 31, 2009 or loss of qualification may result.

These qualifications listing are valid through the expiration dates indicated by the last 6 digits of the current qualification reference numbers (mmddyy), provided that all requirements of the subject specification are met. A stop shipment/stop production status is effective on the expiration date unless approval is granted by DSCC-VQE to complete existing contracts. Manufacturers are required to inform DSCC-VQE within 3 business days if a failure occurs during group B testing, if production of certifiable product is discontinued, or prior to issuance of a GIDEP Alert and/or Problem Advisory on their QPL products.

Sincerely,

RAYMOND L KOLONCHUK
